

Web-Application Programmer

Nanoleaf is a green-tech Canadian startup focused on smart/connected energy-efficient LED lighting products. With a growing team of 35 people located both in Toronto and Shenzhen, Nanoleaf is selling its own branded products in Apple stores and major retail chains throughout 40 countries.

Please visit: www.nanoleaf.me

Current tools that are we heavily use:

- Google spreadsheets
- **Unleashed** cloud inventory management system
 - <https://apidocs.unleashedsoftware.com/>
- Xero cloud accounting
- Linux/Python/Java
- Excel Macros .NET

Job duties

- You will be working closely with the COO to create simple IT web solutions that will improve efficiency workflow within Nanoleaf's three operating locations.
- **First project:**
 - Create a web solution that will gather and display logistics data from the following locations:
 - Sales office in Toronto
 - Shenzhen merchandising team
 - Chinese factory
 - Warehouses located in USA, Canada, Europe, and Hong Kong
 - API access our cloud inventory system <https://apidocs.unleashedsoftware.com/>
- You will need to be able to work independently at home and travel to Futian, Shenzhen a few days out of the week.
- You will need to be able to communicate adequately in English and Mandarin
- You will have the opportunity learn and experience the day to day operations of a hardware/software company selling high-end products globally.

Compensation and Work Hours: Flexible and to be discussed. Nanoleaf is a result driven company.
