KPMG 1-year placement programme - IT Advisory

About KPMG

KPMG is a global network of professional firms providing Audit, Tax and Advisory services to many of the world's foremost companies. We operate in 154 countries and regions, and have 200,000 people across a range of disciplines working in member firms around the world. KPMG China operates in 18 cities across China, with around 12,000 partners and staff.

At KPMG, our purpose is to "Inspire Confidence and Empower Change", helping China to open its doors to the rest of the world and work with our clients to create the future. We are looking for top students who are passionate, committed and eager to succeed – all degree disciplines are welcome.

About IT Advisory

Our Advisory professionals assist clients through a range of services relating to Management Consulting, Risk Consulting, Deal Advisory and Strategy. Together these services can help address a client's strategic needs in terms of growth (creating value), performance (enhancing value) and governance (managing value).

Our IT Advisory services allow our clients to harness the full potential of information technology in line with their business strategy and vision whilst also supporting or driving compliance with laws and regulation. Offering services through the life cycle, our IT Advisory professionals can also assist our clients through the implementation process to achieve measurable results. At KPMG's Consulting practice, we do not limit ourselves to either strategy or implementation. We deliver both. Our Hong Kong division is the fastest growing within KPMG China and represents a young and enthusiastic team that always pushes for success.

About the programme

This placement year offers you the chance to gain a broad range of professional experience while working with a wide variety of people in KPMG. On our 1-year placement programme, you will get both technical training and personal development opportunities that will equip you with the skills you need to succeed in your career together with industry-lead work experience in a world-class firm.

What your job will involve?

Joining KPMG means that you will become an integral part of a multi-disciplinary team to help our clients excel in the changing market environment. You will also be motivated to learn new things every day and work with some of the best talent around the world. Our reputation as a leading professional service provider is reinforced by the wide range of awards KPMG has received over the years as the employer of choice, for our strong community involvement and our wealth of knowledge in the professional industries.

Extraordinary experience
- countless opportunities

You will have the opportunity to work in a technology centric role on varied projects across industry sectors to begin with. As you gain experience you will have the opportunity to specialise and further broaden your capabilities. We have a broad range of services and focus areas which include the following technology areas:

- CIO Advisory
- Cyber Security
- Data and Analytics
- Risk and Assurance
- Technology Enablement

The work will often be demanding and, like any job, have some mundane aspects. At other times, it will stretch your energies and capabilities to the limit. So you can be sure that it will be satisfying and rewarding, with plenty of opportunities for a good social life with colleagues when the job is done.

We will recognise good results during your placement. High performance could lead to a permanent graduate position as a second-year consultant upon completion of your studies.

Where will I work?

We have positions based in our Hong Kong office. Depending on the engagement you work for, you will regularly be based at a client's premises, continuously acquiring and sharing knowledge with fellow team members.

How long is it for?

The placement will last for 10 months from September 2018 to June 2019.

Requirements

Within our recruitment process, we look for more than just your academic results. This wider perspective helps us ensure that we are giving you the best opportunity to demonstrate your potential.

- Penultimate or final year of bachelor or masters students
- Ideally majoring in computer science, computer engineering, information systems management, technology, data science, analytics, mathematics, statistics or equivalent degrees
- Knowledge or experience in IT project management, cyber security, ethical hacking, data analytics, risk assessment or programming would be an advantage
- Good written and verbal communication skills
- Passionate, committed and eager to succeed
- Self-starters with good analytical and problem-solving skills
- Applicants for Hong Kong office should have the right of abode or valid working permit in Hong Kong
