

BUILD YOUR CAREER • CONNECTING COMMUNITIES

As a growing international company, the MTR Corporation strives to connect communities through our railway network, property projects, various commercial activities and investment projects. We continue to export our expertise and experience to cities outside Hong Kong. Join us in building your career in our dynamic businesses.

We are currently recruiting:

Graduate Engineer (Ref: M17549)

Our Graduate Engineer Programme is a HKIE accredited Scheme 'A' training programme leading to Chartership. It is a comprehensive and forward looking programme which provides participants with an excellent platform to gain multi-disciplinary exposure in the engineering profession.

As a growing international company, MTR offers unique opportunities for participants to take part in major asset replacement projects, take-over of new railway lines, overseas assignments and researches / application on advanced technology, which help shape next generation rail. Customised development activities such as people and work management skills training and mentorship of senior managers are also provided.

You should be fresh or recent graduates with Degree accredited by HKIE for the following disciplines:

- Control Automation & Instrumentation
- Electrical
- Electronic

You should possess excellent academic achievements, high development potential, good analytical and problem solving skills, excellent communication skills in English and Chinese (including Putonghua) together with dedication to a career in railway design, operations and maintenance. Proficiency in various programming languages and knowledge of latest technological development such as big data analytics are advantages.

Applications

You are invited to apply online via http://www.mtr.com.hk/mtr_job_en on or before **28 December 2017**. Only online applications via our corporate website will be accepted. Shortlisted candidates will be invited to attempt online tests in early January 2018 via email. Applications submitted earlier are still under review, re-application is not required.
