you create?

2019 Morgan Stanley Asia Fixed Income Analyst – Rates Structuring

The Rates Structuring Off-Cycle 6-month Internship in Hong Kong is designed as an opportunity to learn more about the important role that Fixed Income, and more specifically Rates Structuring, plays within Morgan Stanley. This internship is designed to give you insight into this division and an opportunity to develop and master the analytical, quantitative and interpersonal skills needed to develop an exciting and rewarding career.

Key responsibilities include:

- Design, develop, price and promote bespoke and innovative rates derivatives and structured products with a focus on the Firm's institutional clients
- Assist in managing business expansion for structured products for institutional and corporate clients
- Customize products and solutions tailored to clients' specific appetite for risk and in alignment with the Firm's ongoing client-centric service delivery, as well as applicable policies, rules and regulations

Skillset / Requirements

- You have recently graduated or will soon graduate with a strong interest in the financial markets
- A Master's degree in Mathematics, Engineering, Physics or Financial Engineering is preferred
- A genuine interest and understanding of the Asian financial markets
- Fluency in English required

Start Date: May / June 2019

Candidates should be analytical, insightful, quick learners, team players, multi-taskers, with a positive attitude.
