

Recruiting: Full-time Web Frontend Developer
GoTalents Company Limited

Introduction

GoTalents is an online social media and network, where you can connect with creative industry talents and employers worldwide. At GoTalents, our team is dedicated to building a global ecosystem, enabling creative industry talents to freely demonstrate, develop, and connect.

Most recently, we have received funding from Cyberport Hon Kong.

We are looking to expand our team, and are in search of passionate frontend developer(s) willing to join us on our exciting journey. We are actively searching for internship candidates and possibly long-term partners, experienced and interested in:

1. Strong HTML / CSS
2. Frontend JavaScript library, especially React.js. Understanding in Redux would be a plus
3. Teamwork
4. Entrepreneurship

You will closely work with high-caliber businesspersons, designers and developers with professional experience from Deloitte Consulting, BCG, IBM, 9GAG, global finance institutions and serial entrepreneurship. Gain down-to-earth execution abilities and nothing-to-something experience, working with a team of highly committed and passionate individuals.

Join us on our mission and help creative talents go further.

Role and Responsibilities

- Ability to convert a given design into HTML and CSS
- Creating React.js components and pages
- Creative suggestions and contribution

Work Conditions

- Minimum commitment of 20 hours per week
- Flexible and remote working environment

Requirements

- A professional, entrepreneurial work attitude, and attention to details
- Fluent English and effective communication skills (Mandarin is a plus)
- Team player and responsible character
- Relevant skillsets and experience

For Applicants, please submit your latest CV, cover letter and portfolio (if any) to the below contact. Feel free to reach out to us with any enquiries, and we will get back to you as soon as possible.
