Deloitte Asia Pacific
Job Profile - Business Analyst, AP Risk Advisory

Business Area: Asia Pacific Risk Advisory

Job Description

AP Deloitte Asia Pacific brings together Australia, China, Japan, New Zealand, and Southeast Asia Firms as of 1 September 2018. The Business Analyst, who will be based in Hong Kong, will work on financial reporting and key Clients & Industries initiatives ("C&I") that drive the growth of the Risk Advisory business ("RA"). He/she will team with cross-geography teams to track monthly performance, develop key performance indicators and variance analysis, and assist in the implementation of action plan.

Reporting to Strategy & Operations Director, this analyst will focus on key Operational and Clients & Industries initiatives for Risk Advisory.

Responsibilities

Specific Responsibilities:

- Perform financial analysis and report trends, and other insights for the AP RA business
- Assist S&O director to develop and manage the budgeting and forecasting activities; assist in the strategic planning process
- Work with regional / geography C&I and finance teams to ensure complete, accurate and timely report of AP RA financials
- Support S&O Director on RA project tracking, reporting and other short-term deliverables
- Support the rollout of regional C&I programs within RA

Qualifications

Education: Bachelors' Degree in Business Administration, Communications, or other business related field and/or equivalent professional qualification.

Years of Experience:
0-2 years of experience working for a professional services organization.

Other Qualifications & Skills
- Detail oriented, high sense of responsibility
- With Business-oriented mindset and problem solving attitude
- Good interpersonal skills and a team player
- Able to work under pressure with good multi-tasking skills
- A quick learner, self-motivated and driven
- Excellent Excel and Powerpoint skill
- Fluent in English (written and spoken) and Chinese
