

FTI Consulting - Senior Consultant, Forensic Accounting and Advisory Services (Tokyo)

Company Background

FTI Consulting, Inc. is a global business advisory firm dedicated to helping organizations protect and enhance enterprise value in an increasingly complex legal, regulatory and economic environment. With more than 4,600 employees located in 27 countries, FTI Consulting professionals work closely with clients to anticipate, illuminate and overcome complex business challenges in areas such as investigations, litigation, mergers and acquisitions, regulatory issues, reputation management, strategic communications and restructuring.

In Asia, FTI Consulting has a team of more than 350 professionals situated in 10 business centers across the region. We provide advice on issues in the areas of finance, risk, governance, performance, reputation, intelligence, compliance and liability. We deliver solutions through our market-leading business practices of Corporate Finance/Restructuring, Economic Consulting, Forensic and Litigation Consulting, Strategic Communications and Technology.

Position Summary

Our forensic accounting and advisory services practice undertakes a wide range of engagements, including complex fraud investigations; FCPA and financial investigations; business valuation, commercial disputes and litigation support engagements.

As a Senior Consultant, you will supervise, execute and complete client engagements, with responsibility for day-to-day activities. You will undertake investigations and complex accounting and financial analysis, prepare short reports and supervise the work of junior staff. You will work directly with senior members of the team, and receive internal training, on-the-job coaching and mentoring. You will need to develop a strong knowledge of the legal process, especially with regard to litigation, fraud and compliance issues.

Key Responsibilities

- Reconstruct complex accounting records from incomplete information.
- Analyze and interpret large volumes of accounting records.
- Assess the reliability of accounting evidence.
- Perform investigative interviews and participating in client meetings.
- Review financial statements for compliance with generally accepted accounting principles.
- Undertake company and industry analysis.
- Perform financial, ratio and comparable company analysis and financial and discounted cash flow modelling.
- Prepare draft expert reports and client reports and presentations, detailing project scope, methodology and findings.
- Develop project planning and management skills.
- Supervise the work of junior staff and provide coaching to junior team members.
- Interact with clients, including lawyers, in house counsel and senior accounting personnel.
- Undertake networking and marketing activities to develop professional contacts.
- Assist senior team members with new business development activities.
- Contribute to company initiatives and team development activities.

Key Requirements

- Bachelor's Degree in Accounting, Finance, Economics or related disciplines.
- Japan or internationally recognized professional accounting qualification.
- 3-6 years of professional accounting experience, including experience in financial investigations, litigation support and expert witness services, and/or business valuation.
- Proficiency in both written and spoken English and Japanese required.
- Strong report writing skills.
- Excellent analytical and quantitative skills.
- Detailed knowledge of accounting principles.
- Proficiency with the Microsoft Office applications.
- Adaptability in a fast paced and dynamic working environment.
- Strong attention to detail and ability to handle and analyse complex financial information.
- Experience of leading small teams working on client site.
- Ability to work on multiple client matters at one time.
- Ability to work independently with limited supervision.
- Ability to work with senior team members and the client in demanding, deadline-driven situations.
- Strong work ethic and integrity and high level of professionalism.
- Ability to travel when requested.

Given the large amount of applications received, only shortlisted candidates will be contacted.

FTI Consulting - Senior Consultant, Global Risk and Investigations Practice (Tokyo)

Company Background

FTI Consulting, Inc. is a global business advisory firm dedicated to helping organizations protect and enhance enterprise value in an increasingly complex legal, regulatory and economic environment. With more than 4,600 employees located in 27 countries, FTI Consulting professionals work closely with clients to anticipate, illuminate and overcome complex business challenges in areas such as investigations, litigation, mergers and acquisitions, regulatory issues, reputation management, strategic communications and restructuring.

In Asia, FTI Consulting has a team of more than 350 professionals situated in 10 business centers across the region. We provide advice on issues in the areas of finance, risk, governance, performance, reputation, intelligence, compliance and liability. We deliver solutions through our market-leading business practices of Corporate Finance/Restructuring, Economic Consulting, Forensic and Litigation Consulting, Strategic Communications and Technology.

Practice Summary

As part of our Global Risk & Investigations Practice, you will join a team conducting sophisticated investigations, uncovering actionable intelligence and performing value-added analysis to help decision-makers address and mitigate risk, protect assets, remediate compliance, make informed decisions and maximize opportunities. Our team conducts independent investigations to help clients resolve a variety of issues, including:

- Corporate Investigations.
- Whistleblower allegations.
- Fraud and complex financial investigations.
- Anti-bribery and corruption (FCPA/U.K. Bribery Act) investigations and risk assessments.
- Political risk assessments.
- Due diligence for mergers and acquisitions, joint ventures and cross-border transactions.

Position Summary

Reporting to the Managing Director based in Tokyo, your responsibilities will include:

- Collection and analysis of information from research of public-domain sources to support on-going investigative, business intelligence and consulting assignments.
- Evaluation of information and information sources for accuracy, reliability and relevance in assessing risk.
- To ensure the efficient management of standard assignments throughout the Asia-Pacific region including the drafting of and reports, and support with all services related to the assignment (in house research and analysis, field work, etc).
- Creation of research reports in English, presentations and where needed link charts or similar diagrams to record investigative actions and findings.
- Proactive identification of new sources of information, and research tools and approaches as well as managing of these resources to achieve high quality and cost effectiveness.
- Proposal drafting and client liaison during assignments.

Key Requirements

- A keen interest in investigations, research, business intelligence and due diligence work with minimum of 1-3 years' experience in conducting similar research and investigation work.
- Broad professional experience, including prior international work experience/travel or experience working as part of a global dispersed team an advantage.
- Demonstrated self-starter and resourceful individual, with experience of operating in fast paced and dynamic operational settings.
- Excellent oral communication, analytical and report writing skills essential.
- Strong Microsoft Office skills including Word, Excel, and PowerPoint. Practical experience in online information retrieval and knowledge of data mining tools e.g. i2 analyst's notebook an advantage.
- Minimum Bachelor's Degree.
- Native Japanese speaker with professional English fluency and reading and writing ability.
