Graphic Designer

We are looking for a Graphic Designer to create user interfaces that have high visual appeal, usability, usefulness, and engagement level. He/she must also have the ability to communicate complex information visually in an effective, efficient, and aesthetically pleasing way.

Duties

- Design graphical user interface elements.
- Creating and editing videos.
- Communicate with other teams (e.g. engineering, marketing), understand their needs, and create designs that help achieve their goals and objectives.
- Understand our products and the industry. Propose new ideas and present them visually.
- User interface design and maintenance, including our websites, software, apps, etc.
- Create wire frames, storyboards, sitemaps, and screen flows.
- Help perform UX tests.
- Analyse user activity and feedback in order to improve.
- Assist with content development.
- Stay up to date with the latest UI trends, techniques, and technologies.

Requirements

- Bachelor's degree in Computer Science, Visual Design, or related fields.
- Demonstrable UI design skills with a strong portfolio.
- Experience in creating wire frames, storyboards, user flows, process flows, site maps…
- Proficient in Photoshop, Illustrator, Visual design, Fireworks, wire-framing tools, HTML5, CSS3, JavaScript, jQuery Mobile…
- Final Cut Pro experience is a plus.
- Excellent visual design skills with sensitivity to user-system interaction.
- Creative, passionate, and a perfectionist.
- Fluent in English (must), Cantonese (strong plus).
- Strict compliance with our Code of Ethics: respect doctrines of intellectual property rights, trade secret protection, and fiduciary duties.

Benefits & Environment

- Medical, dental insurance
- Marriage leave, Compassionate leave, etc.
- Start-up: minimum secretarial and clerical supports
- Multicultural, team-focused, dynamic – a Make-it-Happen culture
