

Research Assistant/Associate

From 20K, commensurate with experience
Regencell Bioscience Limited
Hong Kong

We are looking for a Research Assistant/Associate to support our expansion and increased demand in R&D of our Chinese medicine treatment products. If you are a team player who are willing to learn and work hard, self-motivated, love working in a challenging environment and want to make a difference in lives of those who suffer from illnesses with unmet medical needs, then this is the perfect opportunity for you!

Company Description

Regencell Bioscience aims to be the global leader in the research, development and commercialization of Traditional Chinese Medicine (“TCM”) for the treatment of neurocognitive disorders and degeneration, specifically Attention Deficit Hyperactivity Disorder (“ADHD”) and Autism Spectrum Disorder (“ASD”), for which there are unmet medical needs in the global market. Our goal is to improve the lives of patients, families and caregivers and be the market leader for the best treatment of ADHD and ASD globally.

Responsibility

You will collaborate with other researchers to support the day-to-day activities in implementing and performing vital tasks associated with our research study, including, and not limited to, monitoring patient progress, collecting and managing quality data and conducting research on Chinese medicine-related information.

Qualifications

- Bachelor’s degree or above. A Chinese medicine degree will be a plus but not required.
- Academic and/or work experience in research and data management, preferably in the field of life sciences or medicine.
- Proficiency in MS Office.
- Ability to work independently and as a good team player.
- Good interpersonal and communication skills.
- Good command of written & spoken English and Cantonese.
- Knowledge of and interest in Chinese medicine.

Fresh grad with relevant academic background will be considered for internship with a chance to be promoted to Research Assistant upon satisfactory performance. Those with more experience will be considered for Research Associate.

For further questions and/or to apply for this position please email hr@rgcbio.com on or before May 11, 2021.
