

About the Company

CLP was founded in Hong Kong in 1901, at a time when electricity was still a novelty worldwide. Today we power millions of homes and businesses across the Asia Pacific regions. In Hong Kong, we operate a vertically-integrated electricity supply business providing a highly-reliable supply of electricity to 80% of the city's population. Outside Hong Kong, we invest in the energy sector in Mainland China, India, Southeast Asia, Taiwan and Australia. Our business includes power generation, transmission and distribution, and electricity and gas retail activities. Our goal is to meet Asia-Pacific's energy challenge in a sustainable manner from one generation to the next.

About the programme

The new CLP Graduate Internship Programme (CGIP) offers full-time work experience with on-the-job training to recent university graduates for a 12-month period. The internship programme typically covers a wide range of projects suitable for graduates studying in different disciplines in the university, such as Business, Engineering, Environmental Affairs and Information Technology.

By completing the project, your placement will enable you to:

- Gain valuable work experience and exposure
- Work on interesting projects alongside with experienced professionals
- Gain a great sense of achievement
- Acquire new skills and abilities to enhance your profile
- Learn more about yourself and explore your career interest

Requirement

- A valid permit to work in Hong Kong SAR
- Recent Graduates with Bachelor or Master's degree in related discipline
- Good academic results
- Good communication skills. High proficiency in both written and spoken English. Fluent spoken and written Chinese would be advantageous
- Active in extracurricular activities is a plus
- To be a good team player
- Available full-time during the internship period
