

2021 Kuaishou Technology Overseas Recruitment Program

【About Kuaishou Technology】

Kuaishou Technology is a technology company that develops content sharing platforms and makes content production, distribution and consumption fast and easy. Our content recommendation system is built on a deep understanding of our users and the content being shared on our platforms every day.

Our flagship product, Kuaishou, is China's leading short video sharing and social networking platform that enables users to capture the unique and memorable moments of their everyday lives and to interact with followers in real-time. Powered by big data, our technology offers users a highly personalized experience and encourages members from all communities to create and discover interesting and dynamic content.

Founded in 2011, Kuaishou Technology is headquartered in Beijing, with more than 10,000 employees and offices in China, the United States, India, and Brazil. For more information, please visit www.kuaishou.com.
