

**Atkins** is one of the world's most respected design, engineering and project management consultancies. We build long-term trusted partnerships to create a world where lives are enriched through the implementation of our ideas. We have the breadth and depth of expertise to respond to the most technically challenging and time critical infrastructure projects.

Our skills lie in the expansive area of infrastructure – the wiring of society – encompassing buildings; land, sea, and air transport; information communications and security systems; and utilities (including energy and water); as well as in our experience of working for a broad range of clients, including national and local governments as well as the commercial sector. The social and environmental framework of our work is crucial, and we view all our projects in the context of the communities in which they are delivered.

We are seeking to recruit high-calibre staff to join our **Water Team**.

**Assistant Engineer / Graduate Engineer**

- Candidates should hold the following qualifications:
- have a degree in Civil Engineering or a related discipline; and
- have completed HKIE or ICE engineering training scheme (for Assistant Engineer only); and
- have 0 - 5 years' consultancy experience depending on grade applied for; and
- have design experience in at least one of the following: drainage, wastewater, water and/or utilities engineering; and
- have hydraulic and BIM modelling skills will be an advantage; and
- have a good command of written and spoken English.

*Already Chartered Engineer (HKIE, ICE) will be considered as Engineer grade.*

Interested candidates should send their application with resume, current and expected salary to **recruit.hk@atkinsglobal.com**.

Applications will be treated in confidence and only be used for recruitment purposes. Those not being invited for interview within 3 months may consider their applications unsuccessful.
