Dear Students,

We are very excited to share with you that Bloomberg is hosting a Tech Talk soon! You are invited to join us to learn more about how data is acquired and transformed to help our clients make the most informed decisions in a constantly evolving financial landscape. This is an APAC event and you will get to hear from our Global Data Team Members from different countries in Asia.

Event details:
Bloomberg Global Data Tech Webinar

Content of the event
- Learn about Bloomberg, our Global Data department, and a typical day as an analyst
- Understand how we capture and transform data through the use of technology
- Hear insights on how we anticipate client needs in a shifting market, and adapt using the latest process enhancements
- Get tips on preparing for a tech career in Global Data, and learn about the types of projects you may be working on
- Hear about the different career paths available for you
