

MTR 2021 Graduate Recruitment

Over the past 40 years, MTR has been transformed from a local railway operator to one of the world's leading railway companies as well as a successful business with a unique "Rail plus Property" development model. What we deliver every day touches over 7 million customers from our railway and properties locally in Hong Kong. With the expansion of our global footprint, we now engage in everyday touchpoints with over 13 million customers in the Mainland of China, the United Kingdom, Sweden and Australia.

In today's business world, when change is the new normal, it is of paramount importance for us to be innovative, agile and flexible in order to adapt to the evolving operating environment. We are devoted to taking on talented graduates who share our vision to bring in passion, vitality and intelligence to join our team.

To meet our business needs and to match individual profiles and aspirations, we offer our graduate development programmes along two streams:

Corporate General Management

- Graduate Trainee Programme

Functional Professional Expertise

- Corporate Affairs Associate Programme
- Finance Associate Programme
- Graduate Engineer Programme
- Graduate Quantity Surveyor Programme
- Human Resources Associate Programme
- Property Associate Programme
- Railway Officer Trainee Programme

If you have what it takes to strive and thrive in our growing and exciting business opportunities, join our graduate development programmes. You will find an accelerated path for growth, an open avenue for development to your fullest potential and most importantly, a meaningful journey to build a better future for the communities we serve.

Applicants should be final year students or recent graduates who possess excellent academic achievements, high developmental potential, good analytical and problem solving skills, and excellent communication skills in English and Chinese (including Putonghua).

For specific requirements of different programmes, please visit:
